SYNTHETIC ACCOUNTING FIXTURE | NO REAL TRANSACTIONS

Accounts Receivable Transaction Book

Reporting date: 6 November 2026. Seller: CedarBridge Systems FZ-LLC (fictional). Exactly two customer counterparties: Harborline Manufacturing LLC and Meridian Retail Group LLC. The seller is the reporting entity, not a third customer.

40 invoices, 160 priced line items, item-level discounts, synthetic tax, multi-installment receipts, credit notes, unallocated cash and disputes. AED and USD are separate currencies; no exchange rate is provided.

All posted activity in this fixture is through the reporting date. Invoice outstanding balances already reflect listed applied receipts and credit notes. Do not subtract them twice. Unallocated cash remains outside invoice balances. Disputes do not reduce posted balances.

Text-based PDF for extraction and calculation testing. Every table contains all column headers; invoice detail repeats ledger facts intentionally. Do not count repeated appearances as new invoices. Prices and tax treatment are synthetic and are not tax guidance.

Two invoices have no due date or terms. No bank account or exchange rate is supplied. Credit notes in the register are final credit amounts, inclusive of any applicable tax reversal; do not apply additional tax to them.

These receipts have no confirmed invoice allocation. Deduct only for customer-level net exposure in the matching currency. Do not reduce individual invoice balances or overdue totals by assigning these amounts arbitrarily.

Due-date exceptions: AR-0013 and AR-0028 have neither stated due dates nor payment terms. AR-0028 is settled; AR-0013 remains open. Unknown due dates must not be inferred.

Disputes: AR-0007, AR-0019 and AR-0035 each have a disputed portion shown on their invoice detail. Disputes do not change posted outstanding.

Unverified payment claim CLM-0035: Harborline claims payment of USD 2,593.06 against AR-0035 on 2026-11-05. No posted receipt or bank evidence supports it. Posted outstanding remains USD 2,593.06.
